Honorary Chairman:

Pr. FERHATI Omar (Rector of the University)
Pr. MANSOUR Abdelouahab (Dean of the Faculty)

Study Day Chair:

Dr. MEHELLOU Ahmed

AIMS AND OBJECTIVES

This scientific manifestation is part of the program of activities realized by the Department of Chemistry in cooperation with the research laboratory "Applied Chemistry and Environment" in order to motivate researchers, especially PhD students, to present the results of their works and to discuss them with various categories of researchers. On the other hand, this can create an opportunity of cooperation and scientific exchange between the different participants. This manifestation is mainly concerned on the field of applied chemistry and environmental engineering because of their great importance in the chemical sciences and in human daily life.

The event topics cover four themes within the scope of the event's title. The first topic is concerned in the Chemical depollution and environmental protection. This subject has recently become the most important concern of the authorities and organizations concerned by this problem. However, the second topic is focused on the field of pharmaceutical chemistry and drug discovery, where this topic is concerned on the importance of the science chemistry in drug discovery and in pharmaceutical field. The other two topics cover the most important discoveries in organic synthesis and catalysis with all its applications, as well as the most important research in phytochemistry and medicinal plants.

REGISTRATION AND ABSTRACT SUBMISSION

Abstract can be written in English, Arabic or French according to our template (Download from the website of event).

The registration and abstracts submission are done online via the website of event:

<https://sdacee2024.sciencesconf.org/>

Or by scanning of the following QR code:

PARTICIPATION FEES

- Students and PhD students **500 DA**
- Teacher researchers **1000 DA**
- Industrials **3000 DA**

IMPORTANT NOTE

The registration fees covers only the access to all sessions of the manifestation, the day program, and the coffee break.

No lunches or accommodation are covered.

PUBLICATION

Selected papers will be published in Algerian Journal of Engineering and Technology (AJET) .

Algerian Journal of Engineering and Technology (AJET) is a scholarly open access, peer-reviewed, interdisciplinary, biannually and fully refereed journal focusing on theories, methods and applications in Engineering and Technology.

Algerian Journal of Engineering and Technology (AJET) covers all areas of Engineering and Technology, publishing refereed original research articles and technical notes.
